INTERNATIONAL PRELIMINARY EXAMINATION REPORT

(PCT Article 36 and Rule 70)

Applicant's or agent's file reference HYU/PCT/W21	FOR FURTHER ACTION See Notification of Transmittal of International Preliminary Examination Report (Form PCT/IPEA/416)	
International application No. PCT/KR2003/002529	International filing date (day/month/year) 21 NOVEMBER 2003 (21.11.2003)	Priority date (day/month/year) 16 JULY 2003 (16.07.2003)
International Patent Classification (IPC) or national classification and IPC IPC7 H02K 41/02		
Applicant HANYANG HAK WON CO., LTD. et al		

1. This international preliminary examination report has been prepared by this International Preliminary Examining Authority and is transmitted to the applicant according to Article 36.
2. This REPORT consists of a total of 3 sheets, including this cover sheet.
- ☐ This report is also accompanied by ANNEXES, i.e., sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications made before this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT).

These annexes consist of a total of _____ sheets.

3. This report contains indications relating to the following items:
- I ☒ Basis of the report
 - II ☐ Priority
 - III ☐ Non-establishment of opinion with regard to novelty, inventive step and industrial applicability
 - IV ☐ Lack of unity of invention
 - V ☒ Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
 - VI ☐ Certain documents cited
 - VII ☐ Certain defects in the international application
 - VIII ☐ Certain observations on the international application

Date of submission of the demand 24 NOVEMBER 2003 (24.11.2003)	Date of completion of this report 25 JULY 2005 (25.07.2005)
Name and mailing address of the IPEA/KR  Korean Intellectual Property Office 920 Dunsan-dong, Seo-gu, Daejeon 302-701, Republic of Korea Facsimile No. 82-42-472-7140	Authorized officer JEON, Yong Hai Telephone No. 82-42-481-5657 

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/KR2003/002529

1. Basis of the report

1. With regard to the elements of the international application:*

- ☒ the international application as originally filed
- ☐ the description:
 pages _____, as originally filed
 pages _____, filed with the demand
 pages _____, filed with the letter of _____
- ☐ the claims:
 pages _____, as originally filed
 pages _____, as amended (together with any statement) under Article 19
 pages _____, filed with the demand
 pages _____, filed with the letter of _____
- ☐ the drawings:
 pages _____, as originally filed
 pages _____, filed with the demand
 pages _____, filed with the letter of _____
- ☐ the sequence listing part of the description:
 pages _____, as originally filed
 pages _____, filed with the demand
 pages _____, filed with the letter of _____

2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

- These elements were available or furnished to this Authority in the following language English which is
- ☐ the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).
- ☒ the language of publication of the international application (under Rule 48.3(b)).
- ☐ the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).

3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in written form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. ☐ The amendments have resulted in the cancellation of:

- ☐ the description, pages _____
- ☐ the claims, Nos. _____
- ☐ the drawings, sheets _____

5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**

* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this opinion as "originally filed." and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).

** Any replacement sheet containing such amendments must be referred to under item I and annexed to this report.

INTERNATIONAL PRELIMINARY EXAMINATION

International application No.

PCT/KR2003/002529

V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-11	YES
	Claims	None	NO
Inventive step (IS)	Claims	1-11	YES
	Claims	None	NO
Industrial applicability (IA)	Claims	1-11	YES
	Claims	None	NO

2. Citations and explanations (Rule 70.7)

Reference is made to the following document::

D: JP 2000-224827 A (DENSO CO., LTD) 11 AUG. 2000

Document D was not cited in the International Search Report.. A copy of the document is appended hereto.

Novelty and Inventive Step

D is regarded as being the closest prior art to the subject matter of claims 1-11. And it shows a three-position stabilization type linear actuator comprising: four teeth 11-14 which are protruded on the peripheral surface of a soft magnetic fixed core 1, at specified intervals, in order from one side in the axial direction to the axial direction; coils 3-5 which are accommodated in slot parts 15-17 between the teeth; and a movable core 2 which is constituted by alternately unifying four soft magnetic materials 24-27 and three permanent magnets 21-23 in a body in the axial direction, wherein the permanent magnets 21, 23 on both sides are so arranged that the polarities in the axial direction are opposite to the polarity of the central permanent magnet 22. But D does not disclose a mover for a linear oscillatory actuator, comprising: a plurality of permanent magnets each having the shape of a plate; a plurality of cores each insulated on its surface and having the shape of a plate to correspond to the shape of the permanent magnet;; a fastening means for fixing the arranged state of the permanent magnets and the cores which are alternately arranged with each other while being in contact with each other; and a returning means acting in the same direction as a linear movement direction of the mover. And the said mover for a linear oscillatory actuator is not anticipated by the prior art and not obvious to a person skilled in the art. Therefore, the inventions in claims 1-11 are novel and have an inventive step.

Consequently, claims 1-11 comply with Article 33(2) PCT and Article 33(3) PCT.

Industrial Applicability

The inventions of claims 1-11 are industrially applicable.
